DATE

Dear volunteer,

The government authorities in Ethiopia are finalizing details with us concerning our medical mission trip to Ethiopia in December 2018/January 2019. We are set to hold the trip December 26, 2018 to January 6, 2019. We need to demonstrate that we have the personnel to conduct this program, and for that we need to have a list of volunteers.

Filling out this form does not commit you to the trip, though of course we want you to be there, and it does not guarantee that you will be accepted as a member of the team. A trip to Ethiopia may be expensive from where you live. That is why we are getting your registration now so that you can save up to come on this amazing experience with us. You will be responsible for your travel, but we will assist to make that trip affordable. Once in Ethiopia all your stay (food and board) are covered by the medical mission.

Ethiopia is a land rich in culture and history but a rather poor part of an already struggling continent. There is a special need for this mission, so please consider signing up and actually going. Those who have been on mission before can testify to the transforming power in your own life that these mission can have.

Should you have any questions, please feel free to contact me at any time.

David Zic
Medical Mission Ethiopia, Director
